

Pathways to Flight

A STEM program for Cadette Girl Scouts

Offered by the Dallas Chapter of the Ninety-Nines,
an International Organization for Women Pilots

Taught by Female Pilots

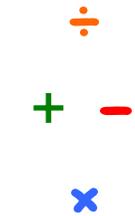

Date: TBD

Duration: 3 hours, 9am - 12pm

Location: McKinney National Airport, McKinney Texas

Attendance Fee: \$15/girl covers Seminar, Snack, Materials, Diploma, and STEM patch

Join us to:

	<p>Discover how airplanes fly. Assemble a simple model plane to review key aerodynamic features.</p>		<p>Is every sunny day a good day to fly? Discuss weather factors as you plan a flight across NE Texas.</p>
	<p>Explore a plane. Visit the cockpit & learn about the instruments.</p>		<p>Schedules permitting, visit with a commercial pilot. But not every aviation career involves learning to fly—brainstorm other options.</p>
	<p>Why is math important to flight? From simple to complex, learn how it helps keep you safe in the sky.</p>		<p>Visit the Control Tower. Learn about the Aviation ABCs.</p>

For more information or to request space at the seminar, contact Janny Strickland at travelerjs@gmail.com.

The Ninety-Nines is an International Organization of Women Pilots, founded in 1929
